VARIETIES	ESPALIERS		DWARFS			
	HORIZONTAL CORDON		¾"-½" Trunk	½"-¾" Trunk	⅝"-1" Trunk	1" & up Trunk
	1 Tier	2 Tier				
<b>ALMONDS</b>						
<b>I.X.L.</b> —Nuts are large and symmetrical; shell soft, smooth; kernel large and well filled.						
<b>NE PLUS ULTRA</b> —An excellent type; good producer; pollenizer; nuts medium to large; flavor good.						
<b>APPLES</b>						
<b>BEVERLY HILLS</b> —Cross of Melba and Early McIntosh. Fruit has white flesh, skin pale yellow with red stripes and splashed with red, quality very good. Well suited for Southern California coastal climate. Early Summer.						
<b>CORTLAND</b> —An attractive red, darkly and obscurely striped apple with white flesh, slow to discolor on exposure to air, very good for cooking, dessert or market. Annual bearer. Late.						
<b>EARLY CRIMSON</b> —This apple ripens a week ahead of Yellow Transparent. Good eating and cooking. Fruit is brilliant red. Early.						
<b>GOLDEN RENETTE</b> —A large golden-yellow apple, with a rich flavor. October.						
<b>GRAVENSTEIN</b> —A large attractive orange-yellow apple overlaid with stripes of red. August.						
<b>KING</b> —A large apple of beautiful red on a yellow background, crisp flesh, juicy and a good keeper. Late.						
<b>KING DAVID</b> —Very large fruit, handsome red; excellent for dessert. Ripens in Winter.						
<b>LODI</b> —Looks similar to Yellow Transparent, but is larger, does not grow mealy as quickly, keeps better, ripens a little later. Early.						
<b>NORTHERN SPY</b> —One of the finest apples with large fruit of thin skin and pale yellow ground-color nearly concealed with bright red. Late.						
<b>RED DELICIOUS</b> —A red striped, long pointed apple of fine flavor and bouquet. October-November.						
<b>RED GRAVENSTEIN</b> —A deep red Gravenstein apple with excellent quality. Fall.						
<b>RED JONATHAN</b> —One of the finest winter apples; skin is bright red, thin and smooth. Flesh is crisp, juicy and a pleasant sub-acid flavor. Highly valued as a table and cooking apple. November.						
<b>RED STAYMAN</b> —An offspring from the Winesap—although the fruit is larger. Late.						
<b>WHITNEY CRAB APPLE</b> —This crabapple has all the good qualities of the best crabapples. Fruit is large, uniform in size and shape, skin is light yellow shaded and striped with red. August.						
<b>YELLOW DELICIOUS</b> —Large golden-yellow fruit. Flesh crisp and juicy, of very fine texture. Hardy grower, prolific bearer. September.						
<b>YELLOW NEWTON</b> —Medium to large fruit. Greenish yellow to yellow; good eating and cooking. Ripens in Winter.						
<b>YELLOW TRANSPARENT</b> —A very early medium large, pale yellow apple. Abundant bearer. August.						
<b>APRICOTS</b>						
<b>BLENHEIM</b> —Large, oval. Yellow, rich and juicy. Regular and prolific bearer. August.						
<b>PERFECTION</b> —New. Extra large fruit. Flesh firm, juicy with rich flavor. July-August.						
<b>ROYAL</b> —Flesh is deep orange with red cheek; rich and sweet flavor; medium size; good bearer. August.						
<b>FILTON</b> —Fruit large size; rich apricot color; flavor of highest quality; bears very heavy. August.						
<b>WENATCHEE MOORPARK</b> —Very large size; skin orange with red cheek; flesh firm; juicy; good flavor. July-August.						
<b>CHERRIES (SEMI-DWARF)</b>						
<b>BING</b> —Large fruit, black; very fine. July.						
<b>BLACK REPUBLICAN</b> (Pollenizer)—Fruit dark color; rich, solid and an excellent keeper.						
<b>BLACK TARTARIAN</b> (Pollenizer)—Large, purplish black, half tender; flavor mild and pleasant.						
<b>LAMBERT</b> —Very large fruit, dark-red. Flavor sweet, or very mild sub-acid, aromatic, rich. July.						
<b>MONTMORENCY</b> —Large; red, tender flesh; mildly acid. One of best canning varieties. Late June.						
<b>VAN</b> (Pollenizer)—Fruit is Bing type; firmer and just as large; sweet; bright black somewhat resistant to cracking. Earlier than Bing.						
<b>ROYAL ANN</b> —(Napoleon Bigarreau) pale yellow with bright red cheek, flesh very firm, juicy and sweet. One of the best for canning. July.

Espalier Trellis-Trained Fruit Trees
Grow Like Vines and Produce Delicious Fruit

Beautify your home with an "orchard" growing on vines! U. S. Espalier Fruit Trees grow in artistic vine-like patterns against any wall, trellis or fence. They yield an abundance of delicious fruit that is often larger and richer than fruit from regular trees.

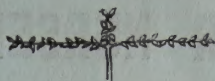

Espalier Trees Provide Blossoms In Spring, Fruit In Autumn

The variety of designs into which Espaliers can be trained is almost unlimited. T-shapes, U-shapes, palmettes, candelabra, horizontal and vertical cordons, pyramids and many other interesting designs can be worked out to fit any space in your yard.

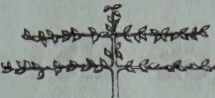

Espalier Trees Need Minimum Space and Care

An Espalier tree needs no more space or care than a rose bush. Genuine U. S. Espalier Fruit Trees are propagated from true dwarf roots which limit their size and growth.

HORIZONTAL CORDONS (T-Shaped)

ONE-TIER. Spread (width between extreme shoots of lower tier) 4 to 8 feet. Height: 2 to 3 feet. Price \$5.50

TWO-TIER. Spread: 4 to 9 feet. Height: 3 to 4 feet. Price \$7.00

DWARF FRUIT TREES WELL BRANCHED

Table with 2 columns: Trunk size and Price. Rows include 3/8" - 1/2" trunk (\$2.50), 1/2" - 5/8" trunk (3.50), 5/8" - 1" trunk (4.00), and 1" and up trunk (\$5.00 and up).

ALL PRICES F.O.B. SHERWOOD, OREGON Packing and crating at cost.

DWARF FRUIT TREES

Dwarf trees are grown from the same stock as our espaliered trees, and have most of their advantages. They require very little space—only one-fourth as much as an ordinary tree, yet they yield an abundance of delicious fruit.

When fully grown, dwarf trees remain low, and by proper pruning they can be kept down to six feet. This makes it easy to prune and spray, and the fruit, which is of true variety, is within reach for easy picking.

TERMS

Unless credit has been established, cash should be forwarded prior to shipment; C.O.D. shipments, 50% in advance. To those customers whose credit has been established with us, terms are 2% discount for payment within 10 days from date of invoice. Net 30 days.

All claims of whatsoever nature, must be made within 10 days after receipt of stock. Positively no claims will be recognized unless made in the time limit specified and in writing.

We accept all orders subject to crop conditions, and on condition that the same shall be void should injury befall our stock from hail, frost, or other causes beyond our control.
